THE BMW X3 M.

COMPLETE.  
EXTREME.

POSTURE.  
EVEN IN FULL DRIVE.

GOOSEBUMPS DON'T LIE.

HITS THE PULSE OF THE TIMES.  
AND TICKLES IT.

UNTAMED. BUT UNDER  
COMPLETE CONTROL.

NO BUT.  
RATHER NOW MORE THAN EVER.  
THE BMW X3 M

■ The X3 M offers an increase in driving dynamics and a powerful, particularly emotional engine sound thanks to increased engine performance and M Sport exhaust system with black twin tailpipes. Distinctive exterior details in Black, the exclusive 20" M alloys, M light alloy wheels and Sport seats in leather Vernasca underline the sporty character.

■ The M specific suspension highlights the vehicle's great dynamic potential. In addition to the three driving modes COMFORT, SPORT and SPORT+, the driver can also choose between three different Dynamic Stability Control (DSC) settings in order to adapt the level of stabilising support to suit their preferred style of driving.

■ The specific model designation of the BMW X3 M is located below the climate control unit and in a visual extension of the M specific gear selector.<sup>1</sup>

■ The M seat belts\* with belt tensioner and belt force limiter have a finely woven-in accent in the typical M colours.

■ The high-performance BMW M TwinPower Turbo inline 6-cylinder petrol engine features superior power delivery and silky-smooth running coupled with a sporty engine sound. With Double-VANOS, Valvetronic, High-Precision Injection and two turbocharger, it generates 353 kW (480 hp).

■ The M Carbon precision strut increases frontend rigidity and contributes to a greater steering precision and accuracy. The premium quality carbon fibre reinforced polymer component is extremely lightweight and creates a genuine motor sport atmosphere when the bonnet is up. In this way, the sporty potential is also expressed particularly well here.

■ Above the right full-LED rear light, the M model designation sets an unmistakable sign for dynamism and pure power.

■ The driver and front passenger are welcomed by door sill finishers with the "X3 M" designation as soon as they get in. The designation on the inserts in Black the door sill finishers in the front on the left and right radiates quality and exclusivity.

□ The M Sport exhaust system<sup>2</sup> (optional) delivers a dynamic sound that can be modified via the integrated exhaust valve mechanism. The SPORT and SPORT+ programmes, which can be selected via the Driving dynamics buttons, are accentuated by an even more intense engine sound, while the comfort-oriented programme prioritises more discreet engine acoustics.

■ 20" M light alloy wheels Double-spoke style 764 M in Bicolour Orbit Grey with mixed tyres, gloss-lathed, front wheel size 9J x 20, 255/45 ZR120 tyres, rear wheel size 10J x 20, 265/45 ZR20 tyres.

<sup>1</sup> Only available for Competition models.

<sup>2</sup> Standard for Competition models.

\* The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at [www.bmw.com](http://www.bmw.com) or at your BMW Partner.

■ The Adaptive LED headlights include low-beam and high-beam headlights and turn indicators with full LED technology. The equipment also features BMW Selective Beam, cornering lights, daytime running lights and Adaptive headlights with variable light control for excellent illumination of the road ahead and better visibility in the dark.

■ Thanks to the use of various materials, M Compound brakes achieve outstanding deceleration values and are extremely stable and highly durable. They also weigh less, which has a positive impact on agility, dynamics and acceleration. The Blue metallic brake callipers with the M designation are the hallmark of these high-performance M specific brakes.

■ The red Start/Stop button allows the engine to be started without using the key once the vehicle has been unlocked. It can also be used to stop the engine. The vehicle key is recognised automatically, without having to insert it.

■ The M leather steering wheel including multifunction buttons, the M badge, chrome detailing and an integrated driver-side airbag has the Double-spoke design. Featuring a steering wheel rim in black leather with colour contrast stitching and contoured thumb rests, it feels great in the hand. The driver can also use the M Drive buttons to select the desired settings whilst driving.

■ Harman Kardon surround sound system\* with 600 watt digital amplifier, vehicle-specific equalising and loudspeakers with chrome detailing.

■ The individually adjustable Sport seats with an embossed M logo for the driver and front passenger feature numerous adjustment options, including backrest width, fore-and-aft position, and the backrest and seat angle. Thanks to taller seat and backrest bolsters, and well-defined side bolsters, they provide excellent ergonomics and a high degree of lateral support.

■ The M gear selector switch features a M specific switch pattern. In manual "S" mode, the driver can shift gears manually using the selector lever or the rocker switch on the steering wheel in typical M fashion; in "D" mode, shifting occurs automatically. Whereas the Drivelogic switch for the three shifting programs is on the upper side, the P button for the parking lock is placed under the M logo.

□ The full-colour BMW Head-Up Display<sup>1</sup> incl. M specific display projects information relevant to the journey directly into the driver's field of vision, thereby allowing them to fully concentrate on driving. Information such as the current speed and, depending on the equipment, navigation directions, Speed Limit Info including no-overtaking indicator, along with telephone and entertainment lists are displayed.

■ The aerodynamically optimised M exterior mirrors are a significant part of the sporty and dynamic M design. Attached to the body by an indicated double-bridge design, they underscore the beautiful aesthetics of the vehicle and convey a sense of precision engineering down to the last detail. The additional LED indicators are fitted perfectly into a long, narrow groove.

■ The M specific roof spoiler with its prominent shape ensures more downforce on the rear axle at higher speeds. At the same time, it lends the three-quarter rear view characteristic sportiness and promises highly dynamic driving experiences.

■ The BMW Live Cockpit Professional\* with navigation function includes two high-quality displays consisting of a high-resolution 10.25" Control Display that can be operated by touch and a fully digital 12.3" instrument display. The BMW Operating System 7 can also be operated via the iDrive Touch Controller.

□ Offers greater comfort and security during monotonous or complex driving situations. These can include traffic jams, stop-and-go traffic or long journeys through the city, on country roads or motorways, along with navigating junctions and lane changes.

<sup>1</sup> The information in the BMW Head-Up Display is not fully visible when viewed through polarised sunglasses. Content shown will depend on the equipment options chosen. Further optional equipment is required to display specific items.  
<sup>2</sup> Function may be limited in darkness, fog or bright glare.  
<sup>\*</sup> The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary.
